1 **AN ACT to create** 350.10 (3) of the statutes; **relating to:** regulatory signs along
2 snowmobile trails and routes.

Analysis by the Legislative Reference Bureau

Under current law, there are numerous traffic regulations that apply exclusively to snowmobiles. These include speed restrictions and restrictions on the locations where snowmobiles may be operated. This bill imposes an additional restriction that a person operating a snowmobile must comply with all snowmobile regulatory signs along snowmobile routes or trails. Current law defines a "snowmobile route" to be a highway or sidewalk open to use by snowmobiles and a "snowmobile trail" to be a corridor across public or private land that is open to the public for the use of snowmobiles.
